

ASSIGNMENT – 3

DASHBOARD-1

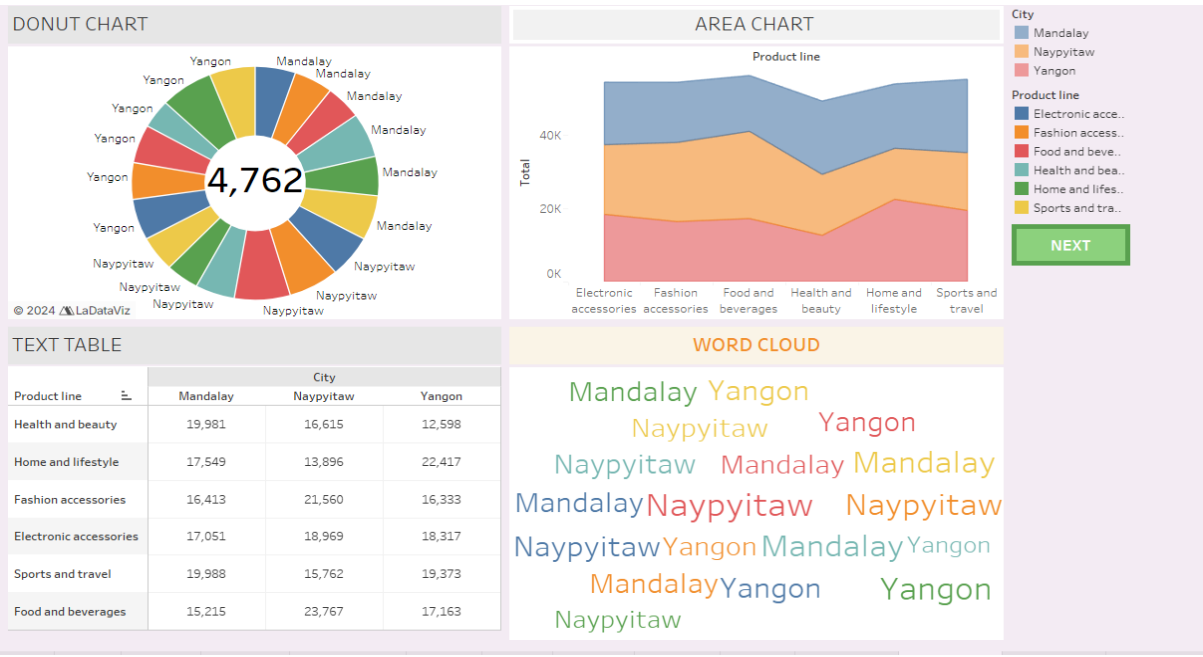

Category & Trend Overview

1.This dashboard shows the distribution of categories using a Donut Chart and highlights the overall trend over time with an Area Chart.

2.It helps compare category-wise contributions and monitor growth or decline.

Users can quickly identify which segments are leading and how values evolve monthly.

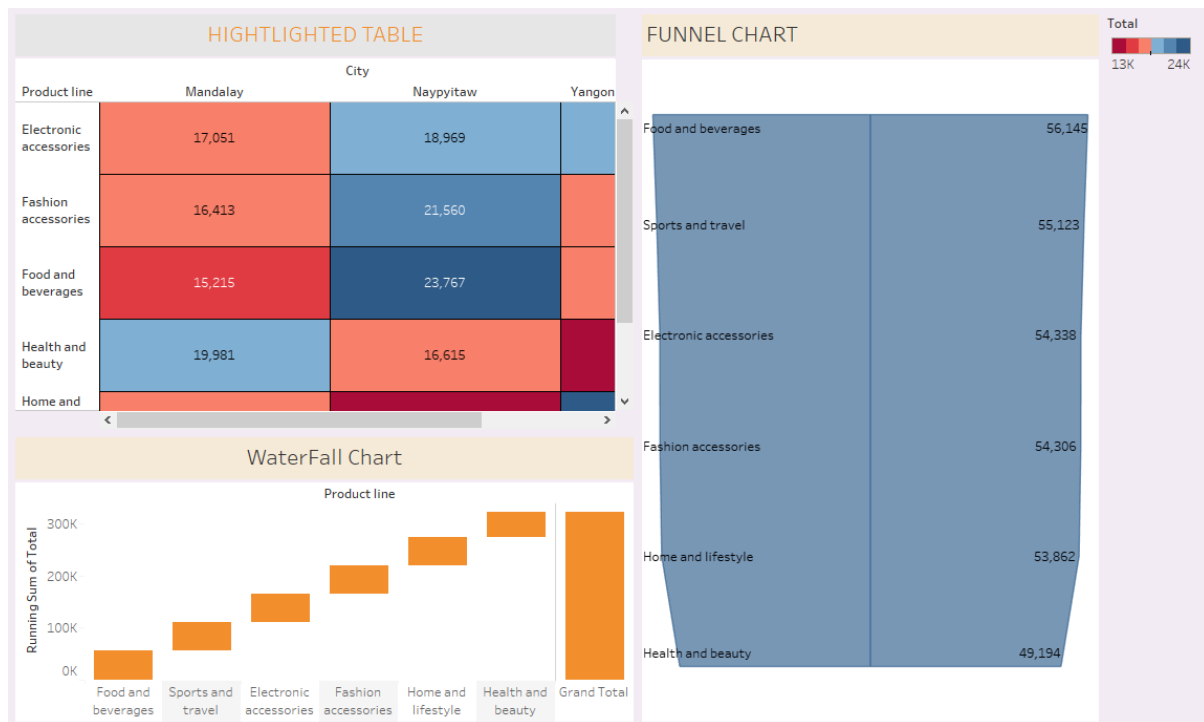

DASHBOARD-2

Text Insights & Breakdown

- 1.The dashboard displays detailed values using a Text Table and highlights variations through a Highlighted Table.
- 2.It also includes a Word Cloud to summarize frequently appearing terms in the data.
- 3.This helps in understanding exact values and gaining insights from textual patterns.

DASHBOARD-3

Process Flow & Contribution Analysis

- 1.The Funnel Chart shows how values drop at each stage of a process, revealing conversion or dropout rates.
 - 2.The Waterfall Chart explains how individual elements contribute to the final outcome.
- Together, they help analyze efficiency and pinpoint major influencing factors.
